Summary

Full Stack Developer with 3.5 years of experience in React.js and TypeScript, and 5 months of experience in Laravel. Expert in creating dynamic, responsive web applications with a strong understanding of both front-end and back-end technologies.

Experience

Full Stack Developer | 03/2024 - Present | Point

- Developed and maintained a complex school system dashboard with over 50 pages, integrating functionalities such as student management, grading systems, and communication tools.
- Created robust back-end APIs for dashboards and landing pages, enhancing data flow and user experience.
- Designed and built intuitive admin dashboards and landing pages for administrative tasks and user management.

Front End Developer | 01/2022 - 02/2024 | Kammun

- Built a comprehensive e-commerce dashboard with over 40 pages, including inventory management, sales tracking, CRM, and analytics.
- Developed animated landing pages using advanced techniques to improve user engagement.
- Designed and implemented over 8 landing pages and various dashboards, focusing on user-centric design and high conversion rates.

Front End Developer | 02/2021 - 03/2022 | Sa3i

- Led maintenance and development of a major app's dashboard and website using React.
- Implemented new features, optimized performance, and ensured seamless integration of front-end and back-end systems.
