Summary

I am a full stack developer with 3.5 years of experience in React.js and TypeScript, and 5 months of experience in Laravel. I specialize in creating dynamic, responsive web applications and have a solid understanding of both front-end and back-end technologies

Experience

Full Stack Developer | 03/2024 - Present | Point

- School System Dashboard Development
  Created and maintained a complex school system dashboard with over
  30 pages, integrating various functionalities such as student management, grading systems, and communication tools, resulting in improved operational efficiency and user satisfaction.
- Built Back-End API for Dashboard and Landing Page
  Developed and implemented robust back-end APIs to support dynamic and interactive dashboards and landing pages, ensuring seamless data flow and enhanced user experience.
  • Admin Dashboard and Landing Page Development
  Designed and built comprehensive admin dashboards and landing pages, providing intuitive interfaces for administrative tasks and user management.

Front End Developer | 06/2022 - 08/2024 | Kammun

- • Developed Comprehensive E-commerce Dashboard
  Built a full-featured dashboard with over 40 pages for an e-commerce system, incorporating features such as inventory management, sales tracking, customer relationship management (CRM), and detailed analytics. Ensured scalability and performance optimization.
  • Created Complex Animated Landing Pages
  • Developed landing pages for various projects utilizing advanced animation techniques to enhance user engagement and interaction.
  Focused on smooth performance and aesthetic appeal.
  • Designed and Built Multiple Landing Pages and Dashboards
  • Successfully designed and implemented over 8 landing pages and several dashboards, each tailored to specific project requirements.
  Emphasized user-centric design, responsiveness, and high conversion rates.

Front End Developer | 02/2021 - 08/2024 | Sa3i

- • Maintained and Developed Dashboard and Website Using React
  • Led the maintenance and development of the dashboard and website for a major app using React.
  Implemented new features, optimized performance, and ensured the seamless integration of front-end and back-end systems.
